Docket No. 98N-12652 '99 APR 19 ATO:11  
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: My Compounded prescription, Estradiol + Progesterone, has made a big difference in my health + quality of life. It has completely alleviated depression + anxiety as well as hot flashes caused by surgically induced menopause. I object to the "inordinate amount" of prescriptions that will be allowed to be shipped out of state as I may no longer be able to receive these prescriptions, and it will definitely affect my quality of life.
